

Data Sheet 4NE1

Particle filtering escape mask

Catalog Number: 98600

Description: An escape mask in the form of a yellow neoprene hood, which covers the entire head and sealed on the neck, without the need for a tightening strap over the neck. The hood has a visor coated with anti-fog spray that allows a wide field of vision. The user can talk and hear while wearing the mask without any difficulty.

Technical specifications:

type	Weight (gr)	Weight including carrier pouch (gr)	Dimensions (cm)	Dimensions including carrier pouch (cm)
MINI fold	220	305	12*8*4.5	14*10*6

Gas filtration:

Type	Test gas	Test gas concentration (ppm)	Breakthrough concentration (ppm)	Minimum Breakthrough time (min)
A	Cyclohexane (C ₆ H ₁₂)	100	10	15
B	Nitrogen dioxide (NO ₂)	100	25	15
B	Hydrogen chloride (HCl)	100	5	15
B	Hydrogen cyanide (HCN)	100	10	15
E	Sulphur dioxide (SO ₂)	100	5	15

Particle filtration: P2 (>94%)Shelf life: 5 yearsSize: one size fits allStandard: Relevant requirements of EN 403:2004 (gas tests accordance to EN 14387+A1:2008)Holster: suitable for carrying on a belt or inside a trouser/shirt/vest pocket
